

## £1000 Security Guarantee

The ATK euro profile cylinder lock featured on your new door meets the requirements of the British Kitemark, TS007 3\* and Sold Secure Diamond testing criteria and also holds Secured by Design accreditation - the Police Crime Preventions Initiative.

The ATK lock has been specifically designed to combat against all known methods of attack on a euro cylinder. ATK has built in "Active Cam" technology with an advanced internal locking system that will prevent access into the inner workings of the doorbolt if it has been snapped on the outside.

The ATK lock will remain secure after forced entry snapping attacks and in most cases will still be operable with the key from the inside.

Given that we offer this unprecedented level of security on ATK locks we have the confidence to state that in the unfortunate event that a burglar was able to gain access to your property by snapping the ATK cylinder then Avocet will pay £1000 in compensation to the homeowner.
